

## TO GO AROUND THE WORLD.

Big Wager Put Up On the Journey by a Bright Lad.

ANDERSON, IND., May 22.—Five thousand dollars was posted yesterday by A. H. Melton of the Scofield Bolt Company of this city and H. J. Bleum of Cleveland, Ohio, and June 6 Raymond Wood, aged 17, will start on a tour around the world. Melton put up \$5000 that Wood would go around the world in two years and send home \$5000. Wood is to get \$2500 if he does it.

Wood is but a lad, yet he is a genius. He is at present in the employ of the Scofield Bolt Company. He already has his globe-trotting scheme outlined. He was raised in Bowling Green, Ky. He will start without money and will make the trip via St. Louis, San Francisco, Honolulu, Yokohama, Suez and New York. He will depend on making his money in the English-speaking nations.

## Antidote to Revolutions.

The San Francisco Chronicle says: Peru is the victim of one of the periodical revolts which disturb the peace of that country, and which seem to have their origin not in the grievances of the people, but rather in the desire of officials to kick up a row. The trouble with Peru is that her resources are undeveloped and that there is no growth of wealth, as in Mexico and Argentina, to give stability to the character of her people. Now that Mexico has become a prosperous producing country, the revolutionary tendency has entirely disappeared and the country is marching along in such a steady and dignified manner that its editors feel justified, when we have our periodical labor riots, in throwing back the charge, once made with great freedom by Americans, that governmental affairs in the sister republic are not as stable as they might be. If Peruvians were as industrious as Mexicans now are they would find little time for revolting.

In 1872 the Japanese consumed four times as much of brown sugar as of white; now they use far more of white than of brown sugar. Japan will not continue long dependent on other countries for her supply of so necessary a staple.

## PURIFINE

Is the disinfectant that the world is talking about. In the United States its merits are becoming known. The people are using it. Purifine possesses many points in its favor over other preparations. It is odorless, and in employing it as a disinfecting agent, does not create another odor as offensive as that which it subdues. Non-poisonous too. That's an advantage—children will meddle; servants misunderstand; then there's trouble. Some one is poisoned.

Those who use it speak its praise in convincing language. Here's one from the Department of Medicine in the University of Michigan.

"We use Purifine and find it very good for deodorizing sinks and boxes, etc., and for washing sponges used about subjects for dissection."  
W. A. CAMPBELL,  
Demonstrator of Anatomy."

PURIFINE is for sale by the **HOLLISTER DRUG CO.** in 25c., 50c., 75c. and \$1.50 bottles. The "AUTOMATIC DISTRIBUTORS" are for rental. Our Agents will call upon you and explain the merits of "Purifine" and the "Automatic Distributors."
